CHRIS RICH

We are this year honoring Mr. Chris Rich on the completion of 50 years of service to the nursery industry. It was in 1900 that he started in the nursery industry in the employ of the Oregon Nursery Company at Salem, Oregon. When the Oregon Nursery Company moved its operations to Orenco, near Hillsboro, Oregon, "Chris" moved along and made his permanent home in the vicinity. He continued as field superintendent of their 1200 acres until the company was dissolved in 1927. He then engaged in growing nursery stock on contract for the Orenco Nursery Company for about ten years, with two of his sons, Samuel J. and Amos. Since that time they have been known to the trade as Rich & Sons Nursery and have increased their acreage and variety of stock extensively.

Mr. Rich has always been on the alert for new varieties or sports of plants and has originated, or discovered several outstanding sports, among them are Rich Pride plum, Rich quince, and perhaps his favorite Rich Double pink Weeping Peach.
